100 BAD MEN LAND IN JAIL.
Desperate Gang Held in New York Crusade Against Carrying Guns.

New York, April 17.—More than 100 men were locked in cells in police headquarters yesterday, following a crusade begun by Commissioner Bingham on the carrying of concealed weapons.

These wholesale arrests followed a raid made on Italian quarters in every part of Manhattan last night, and most of the prisoners are rough visaged fellows who have long been suspected of connection with the notorious Black Hand society. Many of them have been suspected of being implicated in the kidnapping of children, in murders, in shootings, stabbings, dynamite outrages and various other crimes.

The raids, which were conducted by 80 picked policemen, were not without exciting incidents. More than once a detective or plain clothes man and an Italian closed on each other in what appeared to be a light to the death. Then the trained fighter silenced his man with a night stick and led him whimpering to jail.

Under the law the offense of carrying a revolver is dealt with by the special sessions justices, who only now are beginning to impose the maximum sentence. It is now proposed to make the carrying of a revolver a felony punishable by a 10 years' imprisonment.

TO MAKE STANDARD OIL COMPANY PAY ITS TAXES.
Lake County (Ind.) Officials Allege Sequestration.

Chicago, April 17.—Taxing authorities of Lake County (Ind.) have instigated an action against the Standard Oil company of Whiting as a result of investigations in charge of county officials, who have discovered that the company for four years has sequestered millions of dollars' worth of valuable property from tax collectors.

It is estimated by the officials that the Standard Oil company should be paying taxes on \$40,000,000 worth of property, when it is assessed on the tax duplicates for only \$3,000,000.

An Author Waitress.

A young woman writer recently went to work in a quick lunch restaurant of New York and served lunch monthly "waiting" and gathering material for her article, "The Diary of an Amateur Waitress," that is now appearing in McClure's. That Miss Younger's investigation and study of the sociological conditions she found is of permanent under which she worked, of extraordinary methods of management in many of these places, and of her fine rise to a position which is the ambition of most quick lunch waitresses.

Aside from the purely sociological features of the writing, the reader who is unfamiliar with how a great portion of New York lunches and eats, will find much information and entertainment in this unique study by her observant writer as Miss Younger.

D. F. DAVIS' SUCCESS

D. F. Davis, the enterprising druggist, rather than wait the ordinary methods of introduction, urged the Dr. Howard company to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50-cent bottle at half-price.

The wonderful success of this plan was a great surprise even to Mr. Davis, and today there are scores of people here in Barre who are using and praising this remarkable remedy.

So much talk has been caused by this offer, and so many new friends have been made for the specific, that the Dr. Howard company have authorized druggist Davis to continue this special half-price sale for a limited time longer.

In addition to selling a 50-cent bottle of Dr. Howard's specific for 25c, Mr. Davis has so much faith in the remedy that he will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally, when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, nervous or sleeping in the arms, melancholy, and liver troubles, Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Oklahoma Delegates Propose to Sign Document Declared Illegal.

Guthrie, Ok., April 17.—The constitutional convention, which drafted a constitution for the proposed new state of Oklahoma, reconvened today to sign the document. During the month's intermission it has been discovered that the constitution's power is limited, and a decision by Judge Burford of the Oklahoma supreme court will force the convention to draft an entirely new election ordinance or ignore the court's order.

President Murray and some of the leading delegates will, it is said, advise the convention to disobey the injunction.

JAPAN HAS BIGGEST SHIP.

New Aki Outclasses All, Even Dreadnought.

Washington, April 17.—The new Japanese battleship Aki was launched Tuesday at Kure. In the Aki, Japan gains the distinction of having the biggest battleship. She has a displacement of 19,800 tons, a length of 492 feet and a beam of 82½ feet. Her engines, which are turbines, will be of 25,000 horse-power, and it is estimated that she will have a speed of 21½ knots. She has three funnels, against the Satauna's two. Her armor belt is 9½ inches. She will carry four twelve-inch guns, 12 ten-inch and eight six-inch. The Aki was designed and constructed exclusively by Japanese, the principal constructors being Rear Admiral Kitakoga, Captain Ohta and Captain Mizutani. Her keel was laid on March 15, 1906, but her construction was suspended for five months, so that the net time of her construction was only eight months. The British battleship Dreadnought, the biggest in the English navy, is eclipsed as to size by the Aki, as the Dreadnought's displacement is only 18,500 tons, but she carries ten twelve-inch guns, and her speed is twenty-one knots.

BIG CROWD AT OPENING

Boston Pilgrims Welcomed by Many Enthusiasts

DEFEATED WASHINGTON

Young Pitched Fine Ball, While the Home Team Knocked Grahm Out After the First Inning—Boston Nationals Lose.

Boston, April 17.—An immense crowd saw the opening game on the Boston American grounds yesterday afternoon, when the Pilgrims defeated Washington by the score of 4 to 2. The game was also signified by the return of Parent to the Boston fold after he had sulked for a long time on the salary. Parent was sent into right field and played a first class game in the new position.

Acting captain "Cy" Young sent himself into the box and held the visitors safely all during the game, allowing but seven hits. The home batters drove Grahm out of the box after the first inning, having scored all their four runs in that inning. Falkenberg, who succeeded Grahm, fared better, although the Bostonians worked in a hit or two now and then.

Washington broke the ice in the first inning on a single by Schaffy, an out and Anderson's single. Anderson was the third out on a try to steal. Criger throwing splendidly.

Sullivan opened the Boston's half by getting a hit in the shoulder. Collins scored a grand slam, and sacrificed Sullivan to second. Umlauf lined a safe one to left, and Sullivan scored the first run. They did the same in center field and Umlauf having previously gone to second scored home. Parent set the crowd wild by landing a safe one into right, which placed Hoy on third. Forster, New York, had too hot for Perkins and Hoy and Parent scored. Wagner and Criger were easy outs, but there were enough runs to win the game, as the result showed.

An error by Collins started Washington's second rally, the third baseman dropping Schaffy's pop. Cross then followed with a single, and then the two runners worked a double steal. Schaffy scoring on the throw down to second. The rest of the game both teams were held easily.

Threat to Stop New York Games.

New York, April 17.—"If the baseball managers don't keep order in the ball grounds I'll stop their games."

This was the flat-footed declaration yesterday of Police Commissioner Bingham, who had returned to police headquarters after an absence of several days. He asserted that the police department would not furnish police for the interior of ball grounds, and that the owners of the ball clubs must provide a sufficient number of special policemen to preserve order inside the grounds and to protect the patrons.

During the past week several sessions of the executive board of the federation have been held in the hope that an answer would be received from Washington and the necessity of taking further action in the matter would be averted.

CLOSE LOTTERY TICKET SHOPS

Sale of Tickets Stopped in Boston

\$25,000 A MONTH IN HUB

Business at an End in 100 Places Here Where the Blue Slips That Lured Fortune Seekers Were Sold.

Boston, April 17.—The lottery business is at an end in Boston. Every place where tickets were sold is closed. Monthly pickings of \$25,000 clear to the big lottery syndicate, of which Frank X. Fitzpatrick of Cambridge is said to be the leader in this section, were shown to have been obtained in Boston. One hundred places where the tickets are known to have been sold, supplied thousands of purchasers, who regularly bought the little blue slips that allowed them to take a chance for big prizes.

Fitzpatrick, who is a well known man in Cambridge, was indicted at Mobile by the federal grand jury and pleaded guilty last week in the combination known as the Honduras. It is said there were 30 men connected with the syndicate, 26 of whom have been indicted.

The cleanup of the concern showed how profitable it was. By a conservative estimate, \$150,000, at least, were gleaned by the promoters. Chief Wilkie said that eight principals shared in the winnings, of which Fitzpatrick was one. The others are under indictment at the present time.

Clever Idea of "Big Six."

Typographical union No. 6 of New York has a clever scheme for advancing the interests of the trade through the unions. It is furnishing all labor bodies with "stickers," on which is printed this notice: "Returned because of absence of union label." Many unions have resolutions on their books to the effect that no communication will be received without the union label of the printers. Instead of dropping such communications into the wastebasket in future, they will be returned with a "sticker" attached. "Big Six's" delegates recently notified the unions that the "stickers" were being sent out to all labor bodies.

No Printers in Ohio Penitentiary.

The inmates of the Ohio state penitentiary have for years printed a monthly paper, which was called the Ohio Penitentiary News. It has ceased to appear. Suspension was absolutely necessary because of the fact that there was not a printer in the prison to set the type. At the same time there were plenty of bankers, brokers, lawyers and "financiers" in the institution. The books were full of "copy" for the financial, legal and social departments of the News, but no hands were there to perform the mechanical work.

The A. F. of L. exhibit will be at the Jamestown exposition.

President Roosevelt has issued an executive order granting the Saturday half holiday to the employees of the Charleston navy yard during July, August and September this year.

The referendum vote of the members of the various locals of the International Association of Machinists in the Pittsburgh district is overwhelmingly in favor of sustaining the new scale that goes into effect on May 1 and if necessary going on strike to enforce it.
